Glossy Finish

ARA

Looking for a streamlined look but with a handcrafted aesthetic? Ara is a beautiful take on an elongated subway tile that has the appearance of a handmade ceramic with uneven edges and a slight irregular surface. Available in 5 colors in 2 sizes, Ara can be installed in various patterns including stack bond, running bond and herringbone. With the subtil wave on the surface, it gives texture to a surface without being overbearing. A true classic in understated elegance.
