MIST

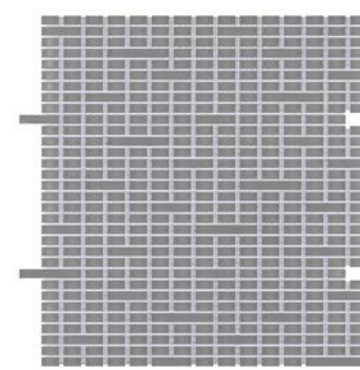

Mist unveils new ways of reading a surface within its spatial dimension, enriched by an innovative sense of depth. The laws of visual perception, and the pattern's visual order are manipulated to give the surface a more seamless continuity through space. It's made of rectangular float glass chips in three different sizes, mounted on glass fiber mesh. The sheets are engineered to be assembled through a thorough interlocking system of chips that results in an unending pattern. Mist is available in six colors: Snow, Frost, Peach, Paprika, Avio and Pepper.

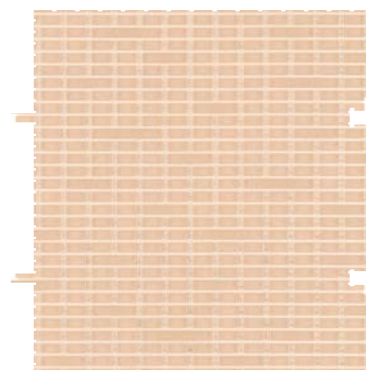

Snow

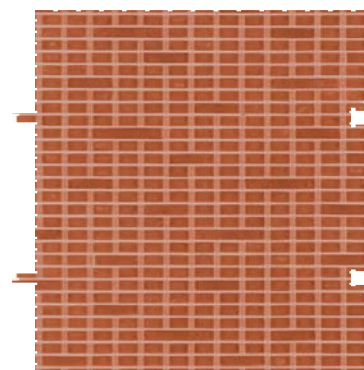

Frost

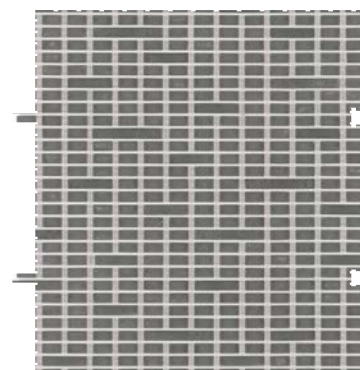

Pepper

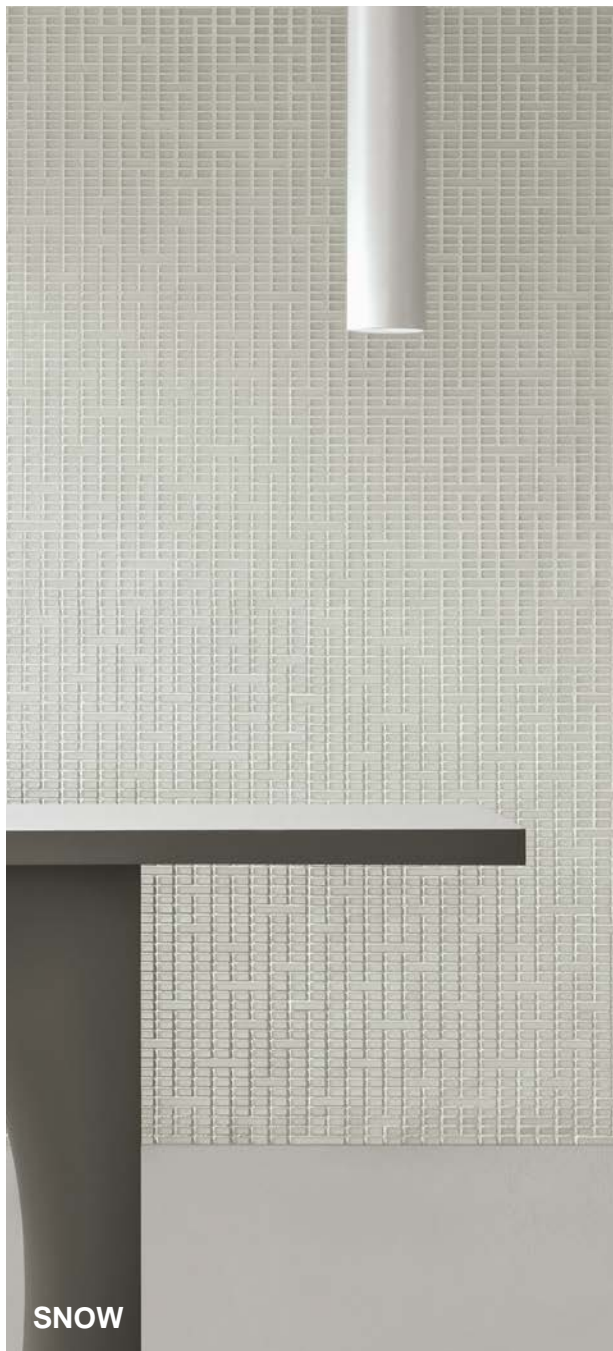

Peach

Paprika

Avio

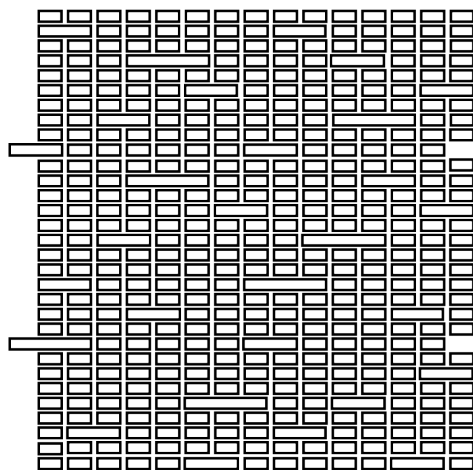

Technical Information

| | | | |
|------------------------------|------------------|------------------------------------|---------------|
| Finish | Matte | Application | Interior wall |
| Frost resistance | Resistant | Resistance to thermal shock | Resistant |
| Chemical resistance | Class UA/LA/HA | Stain resistance | Class 5 |
| Lead and cadmium free | Pb<0.1, Cd<0.001 | Scratch hardness | 4 MOHS |
