POP
ENCAUSTIC CEMENT LOOK PORCELAIN

Matte Finish

POP

The Pop Collection displays an essence of retro style, reflecting the vibrant and bright character of an era full of iconic elements. The series stands out for its rectified finish that minimizes joint widths to achieve a sense of continuity throughout the surface. Its non-slip finish is an added value, which allows for use in both residential and commercial projects.

Technical Information

Finish	Matte	Application	Interior floor and wall, exterior wall
Thickness	8mm	Manufacture process	Single firing
Water absorption	< 0.5%	Flexion resistance	> 35Nw/mm ²
Breaking strength	> 1300 Nw	Resistance to surface abrasion	4
Lineal thermic dilatation	< 9*10 ⁻⁶ /°C	Thermic impact resistance	Passes
Cracking resistance	Passes	Frost resistance	Resistant
Slip resistnace (UNE)	Class 2	Slip resistance (DIN)	R10
Stain resistance (ISO)	Minimum Class 4	Chemical resistance - cleaning products	Class A
Chemical resistance - swimming pool salt	Class A	Chemical resistance - acids and bases	Minimum Class LB
DCOF	> 0.42	Edge	Rectified
