NORD

The Nord collections is inspired by Nordic design that expresses minimalism in both architecture and art, creating a language without excess, full of personality and perpetuity. Several furniture icons within Nordic design are as modern today as they were in the 1950s. The Nord line brings a new concrete surface and new tiles with mini graphic prints. Concrete was reinterpreted in two colors, Ris and Cement, with a flow that simulates the effect of light on the surface. The result is pure elegance, for timeless environments that remain modern.
