A photograph of a bathroom wall covered in blue mosaic tiles. The tiles are arranged in a grid pattern and have a glossy, reflective finish. In the foreground, a white bathtub is visible, with a wooden shelf resting on its edge. The shelf holds a green soap dispenser and a small white container. A chrome faucet and showerhead are also visible. The overall scene is clean and modern.

## CASABLANCA

The handcrafted tradition the Casablanca Porcelain Collection recreates is a clever mix of art and design. The watercolor tones mirror the style of handmade tiles with high shade chromatic variation for a unique final installation. The added value of traditionally crafted products lies in the fact that no two pieces are alike, which is what Casablanca embodies with its distressed, handcrafted, high color variation look available in 8 different colorways.
