CHROMATIC LOOK SUBWAY WALL TILE

Matte | Glossy | Hologram

# GLOW

Glow demonstrates the reactions of light on different glaze applications. The holographic finish can draw the light spectrum, a glossy surface that takes on different colors with the changing of light. Glow unfolds in 4 colors, each color available in a matte and glossy finish and is offered in a mix completed by a holographic finish that creates an iridescent visual rhythm and redefines contemporary surfaces. Hologram is packed as a mix and can't be purchased alone. The Hologram is packed as follows 38% Glossy, 38% Matte, and 24% Hologram mixed in a box.
